GREEN BONDS AS A TOOL FOR FINANCING "GREEN" ENERGY PROJECTS

In this article, the author examines the place of green bonds in the context of financing "green" reforms in their close relationship with the current state orientation in the development of innovative "green" economy. The current statistical data related to the issue and distribution of "green" bonds are mainly analyzed. So conclude that they are becoming the leading tool for attracting funds within the framework of the implementation of various green projects.

Keywords: *green investments, green economy, bonds, financing of sustainable development reforms.*

Irina E. Shaker, *Candidate of Economic Sciences, Associate Professor, Department of Banking and Financial Markets, Financial University under the Government of the Russian Federation*

Author ID: 691609

NEGATIVE NOMINAL INTEREST RATE POLICY IN REGULATORY PRACTICE

The article reviews the nominal interest rate policy and its impact on the savings behavior of households and their debt burden. The analysis of nominal and real interest rates of central banks of major economies of the world and the savings behavior of the population is carried out.

Keywords: *nominal negative interest rate, real negative interest rate, lower zero bound, inflation, households.*

Inna V. Lukashenko, *Candidate of Economic Sciences, Associate Professor of the World Finance Department, Head of the International Finance Laboratory, Financial University under the Government of the Russian Federation*

Author ID: 750732

E-mail: IVLukashenko@fa.ru

OVERVIEW OF THE NEGATIVE INTEREST RATES AND OTHER MONETARY FACTORS IMPACT ON THE BANKING SECTOR OF DEVELOPED COUNTRIES

The article examines the impact of negative interest rates and other monetary factors on the banking sector of developed countries (Europe, USA, Canada). The pros and cons of these monetary policy instruments, their impact on banking activities in the country framework are concluded on the Bloomberg -based data. Trends in the development of these instruments, as well as the position of the monetary authorities regarding the increase in the key rate are shown. The conclusion has been drawn about the ambiguity of the rates role as a tool stimulating global investment activity.

Keywords: *negative interest rate, quantitative easing, central bank digital currency, European banking sector, ECB, banking, loans, deposits.*

Lazar A. Badalov, *Candidate of Economic Sciences, Associate Professor of the Department of World Finance, Financial University under the Government of the Russian Federation*

Author ID: 711421

E-mail: lazarbadalov@rambler.ru

DIRECTIONS FOR IMPROVING THE REGULATORY FRAMEWORK OF THE PAYMENT INFRASTRUCTURE WITHIN THE EAEU

The article presents proposals for improving the regulatory framework of the national payment system of Russia, taking into account the options for payment agreements within the EAEU. It is shown that at the present stage, when building a payment infrastructure in the tasks of regional integration, it is necessary to take into account the global needs for improving cross-border payments and the methodology developed for this by international financial institutions.

Keywords: *payment and settlement infrastructure, regional integration, EAEU, payments, payment regulation.*

Nazar V. Grechkin, *graduate student of Department of National Economy, Peoples' Friendship University of Russia*

Author ID: 968048

E-mail: nazargrechkin@yandex.ru

DEVELOPMENT OF MODERN FINANCIAL TECHNOLOGIES IN THE EAEU COUNTRIES

The article examines the prospects of using financial technologies, in particular crowdfunding, as an innovative tool for implementing relevant projects of the EAEU member states. The author of the study improved the working taxonomy of financial technologies. By analyzing the macroeconomic indicators of the EAEU member states, conclusions are drawn about the need to use alternative investment, in-depth study of the mechanisms of crowdfunding platforms and the development of the digital space in the Eurasian Economic Union.

Keywords: *EAEU, crowdfunding, financial technologies, digital economy.*
